

The 7th Logical Workshop

'Logic & Games'

September 24-30, 2006
Kazimierz Dolny, Poland

<http://www.logika.uw.edu.pl/workshop/>

The main goal of the Workshop is to bring people interested in logic and game theory together. Among topics covered by the programme are: **IF Logic, Ehrenfeucht – Fraïssé Games, Dependence Logic, Henkin Quantifiers, Finite Arithmetics**. The Workshop is open to all who are interested in participation. There is **no conference fee**, all you have to pay is your own travel and accommodation expenses. Workshop is organized in cooperation with **Institute of Philosophy, Warsaw University and Institute for Logic, Language and Computation, University of Amsterdam**.

Among invited speakers who will give tutorials are:

Zofia Adamowicz, Henryk Kotlarski, Michał Krynicki, Kerkko Luosto, Marcin Mostowski, Gabriel Sandu, Jerzy Tyszkiewicz, Jouko Väänänen, Konrad Zdanowski.

CALL FOR PAPERS:

We would like to invite all the participants to take part in the workshop Evening Session which will consist of 20 minutes talks devoted to logic and/or games. Participants interested in giving such talk are encouraged to send the abstracts of their presentations to the organizers group.logic@gmail.com. The deadline for Evening Session applications is **September, 15**.
